Hi Eric-

We do track some populations of invasive species, but generally for something like this, I would just report it to the USGS NAS database. It looks like there was a report pretty close to yours this year (see attached). You can see all the reports and map at:

<http://nas.er.usgs.gov/queries/SpeciesList.aspx?group=&genus=Corbicula&species=&comname=&Sortby=1>

I would recommend contacting Amy Benson to give the report information. (cc-d above)

Thanks!

Mike

Hi Eric,

I believe that Michael Goehle (copied) is the person you want to talk to about Asian clam matters. He is our Regional Aquatic Invasive Species Coordinator. Hope this helps!

Brett

Hi Susi:

[REDACTED]

I communicated with Catherine Gatenby yesterday, per your suggestion via John Warner.

Please let me know if there is a regional contact person at FWS I can speak with.

Thanks.
Best regards.

Eric

Catherine Gatenby (White Sulfur Springs FH) comes to mind since she's leading a regional freshwater mussel initiative.

Hi all:

Could one of you direct me to the best FWS contact regarding freshwater invasives; in particular the Asian clam?

Thanks,
Eric
